

**Message from Secretary (Health & Family Welfare), Ministry of Health & Family Welfare on the Centres 2<sup>nd</sup> Foundation Day.**

It gives me immense pleasure to note that the Sports Injury Centre, a unique institution of its kind under Ministry of Health & Family Welfare which was commissioned and inaugurated by the Hon'ble Prime Minister of India on 26.09.2010 prior to the commencement of Commonwealth Games 2010, is celebrating, its '2<sup>nd</sup> Foundation Day'. The institute has made all round outstanding progress, both in terms of provisions of comprehensive diagnostic surgical and rehabilitative services for all categories of sports injury patients and their late consequences. The number of patients getting benefit of the medical advice is increasing day by day. The dedication and devotion of the Director, Sports Injury Centre and his team has taken the Centre on the heights of fame and praise from one and all.

Launching of an independent website of the Centre is another step for the development of the Sports Injury Centre for which we all are committed. I am sure that in the coming years, the Centre will progress further in the field of sports medicine as well and continue to remain as a Centre of excellence in providing of medical, surgical and rehabilitative services to its patients.
